

# HORIZONX™ LLC

Government Contractor Process Modernization | AI-Powered Operational Intelligence | Patent Pending

## OVERVIEW

HorizonX™ LLC helps government contractors modernize proposal operations, compliance workflows, and business processes through the **HorizonX™ Platform** — a three-engine AI-powered operational intelligence suite. AI is our delivery method, not our product. Our outputs are actionable, structured, and implementation-ready.

## HORIZONX™ PLATFORM — THREE ENGINES

### Compass Engine™

Operational assessment — process audits, AI roadmaps, automation blueprints, and SOPs.

### Recon Engine™

Pre-award intelligence — solicitation analysis, compliance matrix, proposal outline, and bid intelligence.

### Fathom Engine™

Post-award execution — contract intelligence, deliverables tracking, compliance monitoring, and risk assessment.

## CORE COMPETENCIES

- Gov. Contractor Process Modernization
- AI-Powered Operational Assessments
- Automation & Workflow Design
- Governance & Operational Excellence
- SOP Development & Standardization
- PMO Transformation & Optimization
- Pre-Award Proposal Intelligence
- Post-Award Contract Execution Intel.

## PAST EXPERIENCE

### Proposal Operations

*U.S. Navy, Peraton, Leidos (2004–Present)*

Designed and supported federal proposal development, compliance workflow architecture, and content management for government contracting organizations under FAR, DFARS, and CMMC.

### Program Management

*U.S. Navy, Peraton, Leidos (2004–Present)*

Led enterprise-scale program and project management across federal and defense environments — scope, risk, stakeholder alignment, and delivery execution.

### Process Improvement

*U.S. Navy, Peraton, Leidos (2004–Present)*

Designed operational process improvements for organizations managing complex, multi-stakeholder workflows with compliance and deadline pressure.

### HR & Organizational

*U.S. Navy, Peraton, Leidos (2004–Present)*

## DIFFERENTIATORS

### Founder Credentials

PMP, MBA, MS-HRM with 20+ years supporting federal programs, PMOs, and operational improvement initiatives.

### AI + Consulting Hybrid

HorizonX™ Platform outputs are structured around proven consulting frameworks — not raw AI responses.

### Gov Contractor Focus

Every engine reflects FAR, DFARS, and proposal workflow realities. Built for this market, not adapted to it.

### Production-Ready

Three fully operational engines available immediately. No implementation lag — generate intelligence on day one.

### Patent Pending

Proprietary three-engine orchestration architecture and dynamic profile injection methodology. Patent Pending.
